

## **B. Amendments to the Specification**

Please amend the second paragraph of page 5 of the specification as follows:

Sun shield 20 includes a connector 22 for selectively attaching sun shield 20 to the vehicle 500 (also refer to FIGs 5, 10, 11, and 13). Connector 22 may be any device which is sufficient to attach sun shield 20 to a part of the vehicle (such as a visor 502, also known as a sun visor) [502] (refer to FIG. 5), or to a side window 504 (refer to FIG. 10). In the shown embodiment connector 22 is a spring clamp, however other connectors having prongs, hinges, hook and loop fasteners, adhesive, etc. could also be employed. In the shown embodiment, connector 22 includes a cushioning material 24 disposed in the jaws of connector 22 to minimize any impressions which might be made upon the visor 502 of the vehicle 500. Also, when not in use, sun shield 20 may left attached to vehicle 500 (refer to FIG. 15), or alternatively may be stored within vehicle 500 and installed on an ad hoc basis.
